

Eco-responsible Traveller's Charter

I love Aveyron, I protect it

I behave responsibly

I respect the environment, wildlife and plants.

I choose to consume local products.

I don't hesitate to ask local people for advice.

I plan my activities, I stay on the trails and I don't overestimate my abilities.

And I never forget that even in the great outdoors, I am always on someone's land.

I save resources

Water is precious!

Just because I'm on holiday doesn't mean I should overconsume.

I choose soft and sustainable modes of transport.

I pick up my waste and sort it.

I prevent wildfires

I don't have outdoor barbecues outside designated areas.

I dispose of my cigarette butts in an ashtray; I don't smoke in the forest.

If I spot a fire starting, I get to safety, alert the emergency services and stay informed.

AVEYRON 

If I spot a fire starting :

112 or 114*

*hard of hearing people

I can stay informed and anticipate changes in weather conditions :

Forest Weather
